EXPERIENCE

American Express

Technical Project Manager

MARCH 2018 - PRESENT

- **TPM for Mobile & Web Platforms** team that builds world class platforms (Front-End & Back-End) for the company. The platform receives over **70% of all of American Express' external traffic**
- **Facilitate scrum** for two teams. Coordinate quarterly planning using SAFe methodologies
- Manage **JIRA/Confluence** for the entire group consisting of over 4 projects and 40 engineers

NerdWallet Inc

Technical Project Management Intern

JUNE 2017 - AUGUST 2017

- NerdWallet is a FinTech company which aims to improve financial literacy and help people make the right financial decisions
- Built a system for the **Program Management Office** to automate tracking team health metrics using JIRA data. The system used **JIRA** APIs, **Python**, Amazon **Redshift**, **SQL**, **Tableau** and **Redash**
- Improved process in a team of 6 analysts by transitioning to **JIRA** and implementing a **SCRUMBAN** process. Suggested and made changes to various **SCRUM** and **AGILE** teams to improve productivity

California State University, Chico

Technical Project Manager

NOVEMBER 2015 - DECEMBER 2017

- Led the Chico State team to build a wind turbine and a business concept in the Collegiate Wind Competition hosted by the Dept. of Energy, USA
- The team **won first place in 'Best Deployment Strategy'** in May 2016
- **Scrum Master** - Team of **15 interdisciplinary** undergraduate students
- Team lead for the conception of the central idea - Diya Project
- Built domestic and **international strategic partnerships** for the team
- Led all **recruitment** efforts and strategy planning from scratch
- **Led the development of a makerspace** focussed on promoting **entrepreneurship** and **innovation** across the campus
- Assisting with **development of online stores** using Shopify
